

OUR WASTE CAN SHAPE THEIR FUTURE

WASTE NINJA

Recycling food waste is one of the most immediate and effective strategies to reduce your carbon footprint. Waste Ninja works with schools to make food waste recycling easy, affordable and educational.

THE BENEFITS OF FOOD WASTE RECYCLING

Reduce emissions & divert from landfill

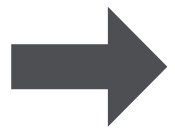

Save on rising landfill costs

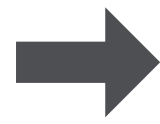

Build sustainable habits amongst students

HOW DOES IT WORK?

We provide all necessary equipment and educational information

Waste is collected & taken to our recycling technology partners

Waste is recycled into electricity, pet foods & fertiliser

A TRUSTED RECYCLING PARTNER

EDUCATIONAL SUPPORT

Waste Ninja partners with you to provide a suite of educational material designed to enable students to develop long-lasting sustainable behaviours.

LIVE TRACK EMISSIONS

The Waste Ninja dashboard provides up-to-the-hour recycling rates, emissions reductions and recycling outputs - at your fingertips.
