

# Turn your energy into revenue with a Virtual Power Plant

Take control of your energy with RACV Commercial Energy Solutions. Our Virtual Power Plant (VPP) services help businesses like yours:

**Reduce costs:** Lower energy bills by optimising your power usage.

**Generate revenue:** Monetise your battery by participating in the energy market.

**Enhance sustainability:** Support Australia's transition to clean energy.

**Improve resilience:** Maintain power reliability during grid disruptions.

Partner with RACV Commercial Energy Solutions, and we can help tailor a VPP solution suitable for your business
